

Permitted Camping Units by Camping Area

The **Class A Motorhome** is the largest and most luxurious of the motorized RVs. Built on a specially designed chassis, the Class A is well equipped for short trips or long vacations and is also well suited for full-timers.

Permitted in: Trackside Electric and Non-Electric, Wilson's Fence Row, Scotty's, and Northfield.

The **Class C (mini) Motorhome** provides many of the luxuries and conveniences of a Class A Motorhome in a scaled-down and less expensive unit. They are built on an automotive van chassis designed expressly for the Class C.

Permitted in: Trackside Electric and Non-Electric, Wilson's Fence Row, Scotty's, and Northfield.

Travel Trailers are a non-motorized RV designed to be towed by a pickup truck, SUV, or (size dependent) car. These units offer all of the amenities of home. Depending on the model and floorplan, some units can sleep up to 10 people, which makes them ideal for larger families.

Permitted in: Trackside Electric and Non-Electric, Wilson's Fence Row, Scotty's, and Northfield.

The **Fifth Wheel** offers maximum living space for a given trailer length. With the master bedroom over the truck bed, these units, "Fivers" as they are sometimes called, have pretty much become the RV of choice for full timers.

Permitted in: Trackside Electric and Non-Electric, Wilson's Fence Row, Scotty's, and Northfield.

The **Sport Utility Trailer, or Toy Hauler** as it is more commonly known, is the newest RV on the block. With space for your motorcycles, ATVs, personal watercraft and the like, it offers the convenience and must be commercial built living quarters with the ability to haul your "toys", all in one unit.

Permitted in: Trackside Electric and Non-Electric, Wilson's Fence Row, Scotty's, and Northfield.

Permitted Camping Units by Camping Area

The **Truck Camper** is loaded onto the bed of a pickup truck and is very popular for remote location camping. Some newer units even have a slide-out for increased living space. Truck Campers are ideal units for those who already own a truck, making the transition to the world of RVing much easier.

Permitted in: Trackside Electric and Non-Electric (no canvas), Family, Wilson's Fence Row, Scotty's, and Northfield.

Expandable Travel Trailers or Hybrids are travel trailers, but possess fold-down tents at the ends, and/or sides, for sleeping. Limited Family Camping Sites are able to accommodate the size of these type of campers.

Permitted in: Family (size limited), Wilson's Fence Row, Scotty's, and Northfield.

The **Pop-Up Camper**, also known as a **Tent Trailer**, is a great lightweight unit like a hybrid between tent camping and travel trailer camping. These units are smaller and less expensive than travel trailers while offering many of the same conveniences.

Permitted in: Family, Wilson's Fence Row, Scotty's, and Northfield.

All **Tent** styles, whether a simple single person or larger multi-room unit.

Permitted in: Family, Wilson's Fence Row, Scotty's, and Northfield.
